

Consent for my details to be seen

Descendants of Christina & Donald McLean: www.christinaanddonaldmclean.com

Thanks for the worksheet you submitted.

Would you consider making your details visible to other people?

- Print-out: Attached is a print-out of all the information which is currently on the database about yourself – this includes the details you provided in the worksheet as well as from other sources. At present, except for you initials, this remains hidden on the database.
- Your choice: The public will only see as little or as much of your details you want to be seen. It is up to you.
- Family members: The print-out includes the names and birthdates of members of your family. Please check that these details are correct, but these will not be visible on the website unless the individuals have given their own consent or have died. People must be over 18 years old to give their consent – thus details of living children are never seen.
- Deciding: To help you think about the pros and cons have a look at S30.2 in the Small Print directory in the homepage. Also look at the government website www.oaic.gov.au.

I, *(print maiden name)* give my consent for the information about myself on the attached print-out, after any changes I have made, to be seen by the public on the website www.christinaanddonaldmclean.com.

I have altered the print-out by making corrections and crossing off what I do not want. *(please initial each change)*

I want to add the following details (including listing of photos or documents):-
