

Consent for my details to be seen

Family tree of Christina & Donald McLean - www.christinaanddonaldmclean.com

As you requested, attached is a print-out of all the information which is currently on the database about yourself. At present, except from your initials, this information remains hidden from the public.

Your choice: You can consent for the public to see as little or as much of your details you want to. It is recommended that at least you give consent for your full name to be made visible because this will improve the usefulness of the family tree. [For our privacy statement, click 'Privacy' on the homepage.](#)

Family members: The print-out includes the details of your family. Please check that these details are correct, but these will not be visible unless those individuals have given their own consent or have died.

Children: People must be over 18 years old to give their consent so details of living children are never visible.

Further changes: After you have given your consent, no other changes will be made to your details unless you give another specific consent.

I, *(print maiden name)* give my consent for the information about myself on the attached print-out to be seen by the public on the website www.christinaanddonaldmclean.com.
