

Allan MacLean 1925-2005 = Alma Henderson 1931-1992

Notes by Don Gordon, Nov 2020

- These two family trees, and the details on the next page, were sent by Allan Lachlan 'Willowburn' MacLean of New Zealand in August 2017.
- Based on other details Willowburn has provided, I have added his parents, Allan and Alma (red font).
- The hand-written tree might not connect with the typed tree. For example in typing, John, born c1727 and dying before 1784, was the father of Hugh, born c1780. In handwriting, with no locations, the same names, and similar dates, John, who died in 1749 was the father of Hugh born in 1782. Something is wrong here because a son can't have been born 33 years after his father died – maybe the boy was his grandson.
- The notes on the next page expand on the individuals on the typed tree. Also included are details for Mary MacColl (born 1755 or 1756) which extends beyond the tree as presented – ie to her father John (Iain) MacColl c1720, her mother Katherine c1725, and her siblings.
